Tide Clopyralid 360SL

Tide Clopyralid 360SL is a selective herbicide designed for post-emergent control of broadleaf weeds in a variety of crops. With its active ingredient clopyralid (360 g/L), it effectively targets difficult perennial and annual weeds in multiple agricultural and non-crop settings.

Why Choose Tide Clopyralid 360SL?

- Effective against hard-to-kill broadleaf weeds
- Safe for a wide range of crops and non-crop areas
- Flexible application rates for different levels of weed pressure
- Easy-to-use soluble liquid formulation
- Compatible with multiple tank mix partners

Key Product Details

- **Chemistry Group:** Group 4 Herbicide
- **Formulation:** Soluble Liquid (SL)
- **Active Ingredient:** Clopyralid – 360 g/L
- **Mode of Action:** Synthetic auxin that disrupts plant growth processes, leading to targeted weed elimination

Crops of Usage

Tide Clopyralid 360SL is registered for use on the following crops:

- Cereals (Wheat, Barley, Oats)
- Canola
- Flax
- Mustard
- Sugar Beets
- Pastures & Rangelands
- Christmas Tree Plantations
- Non-Crop Areas

Application Guidelines

APPLICATION RATE PER ACRE

CROP	APPLICATION RATE (L/ACRE)	WATER VOLUME (L/ACRE)
Cereals (Wheat, Barley, Oats)	0.11 - 0.17 L	10 - 40 L
Canola, Flax, Mustard	0.11 - 0.34 L	10 - 40 L
Sugar Beets	0.22 - 0.34 L	10 - 40 L
Pastures & Rangelands	0.17 - 0.34 L	10 - 40 L
Non-Crop Areas	0.17 - 0.34 L	10 - 40 L

Weeds Controlled

Tide Clopyralid 360SL effectively controls the following broadleaf weeds:

- Canada Thistle
- Kochia
- Dandelion
- Russian Thistle
- Perennial Sow-Thistle
- Common Ragweed
- Volunteer Sunflower
- Common Groundsel

Mixing Instructions

1. Fill spray tank with half the required amount of clean water.
2. Start agitation and add Tide Clopyralid 360SL to the tank.
3. Add remaining water while continuing agitation.
4. Ensure thorough mixing before application.
5. If tank mixing with other pesticides, follow proper mixing order (add Tide Clopyralid first unless otherwise specified).

Tank Mix Partners

Tide Clopyralid 360SL can be tank-mixed with the following herbicides for enhanced weed control:

- Glyphosate-based products (e.g., Tide Glyphosate 540, Roundup, Credit Xtreme)
- MCPA Ester
- 2,4-D Ester
- Bromoxynil-based herbicides
- Fluroxypyr-based herbicides
- Clodinafop-propargyl (e.g., Horizon NG)
- Fenoxaprop-p-ethyl (e.g., Puma Advance)

Always refer to product labels and conduct a compatibility test before tank mixing.

Packaging

- 8.92L jugs (2 x 8.92L per case)
- 36 cases per pallet

Use of this product must comply with the label requirements. Always check and follow the most up-to-date label before application.
